SpeedTouch™ 330
USB ADSL modem

Plug and surf

With the SpeedTouch 330, surfing the Internet becomes a whole new experience. Just plug your modem into the USB-port and let the fun begin.
This modem combines with the Universal Serial Bus interface of your desktop or laptop computer to offer true plug-and-play installation. The SpeedTouch USB is the ideal solution for residential customers and telecommuters who want to use high-performance applications but can't afford to spend hours configuring their system.

Trouble-Free

The Universal Serial Bus is specifically designed to add external peripherals to a computer system in a fast and easy way. Moreover, USB enables applications like high-speed Internet access over an ADSL modem by virtue of its high throughput. This explains why USB is becoming the most popular computer peripheral interface. Most PCs today come with one or more USB ports.

Easy installation

The software delivered with the unit installs in just a few clicks of the mouse. In no time, the SpeedTouch 330 will be up and running. All network specific parameters can be pre-configured in the host software by the service provider, ensuring a true plug-and-play customer experience. A profile can be created for each customer type, giving access to the relevant ADSL service.

Multiple OS support

The SpeedTouch 330 can run on multiple platforms, including Windows 98, 98 SE, 2000, ME, XP, Mac OS 8.6, 9.0, X and Linux.

Technical summary

Hardware specifications

- Interfaces:
  - PC: Universal Serial Bus
  - WAN: ADSL line RJ-11
- Dimensions: 34 x 170 x 135 mm
  (1.34 x 669 x 531 in.)
- Temperature: 0° to 40° C (32 to 105 F)
- Humidity: 10% to 90%
- No external power required

ADSL modem specifications

- ADSL (ANSI, G.dmt, G.lite (automode and selection)
- Up to 8Mb/s downstream, 832 Kbps upstream

Software specifications

- Host software support for:
  - Windows 98, 98SE, 2000, ME and XP
  - Mac OS 8.6, 9 and X
  - Linux
- Plug-and-play installation
- Simple software upgrade procedure
- WAN protocol modules
  - Bridged Ethernet over ATM (RFC 2684)
  - Point-to-Point Protocol over ATM (RFC 2364)
  - Point-to-Point Protocol over Ethernet
    - embedded client
    - 3rd party clients (NTS, WINPOET, RASPPPOE)

Package content

- 1 SpeedTouch 330 modem
- 1 RJ-11 cable
- CD with installation wizard and user's guide
- Quick installation guide
- Filters (optional)
